MOMENT

Humidity-Read

Humidity Read Module

Overview

Humidity-Read is a module for reading humidity value from Moment Humidity Probe, MHT11 (Sold separately). This module reads humidity values from MHT11 and sends the values to Netsense box through a data port. Temperature compensated algorithm is also used when performing humidity calculation.

By using this module with Netsense box, the humidity values are stored in our server for users to monitor. Moreover, alert notification can be set in web based application on *www.mmnetcenter.com*.

Using this module with Netsense box is easy. No software configuration is required. Just plug and play.
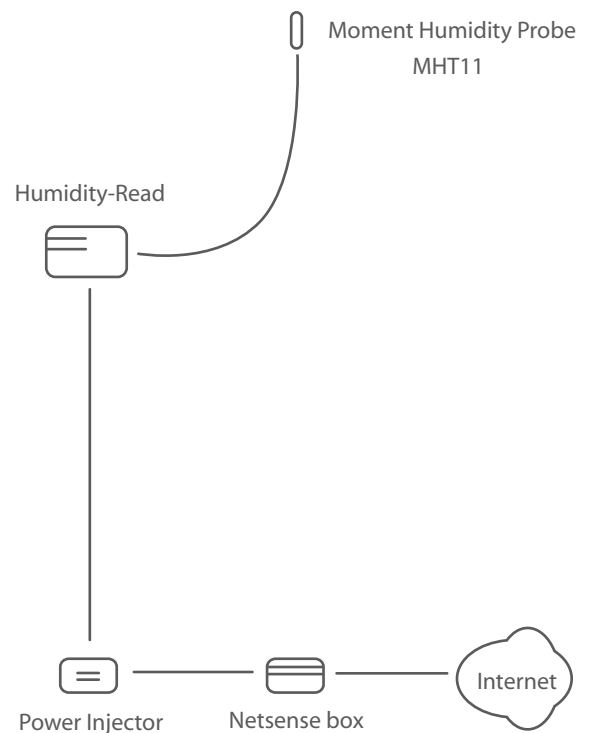

To power up the Humidity-Read module, please check out Power Injector Module.

Applications
- Supermarket
- Medical storage room
- Museum / Warehouse

Moment Humidity Probe
MHT11

Humidity-Read

Power Injector   Netsense box   Internet

Features

- Get benefit of high accuracy, fully calibrated, and digital output from MHT11
- Temperature compensated algorithm for humidity calculation
- Easy to connect with MHT11 using RJ11 plug
- Plug and play with Netsense box
- No software configuration
- Utilizing web base application on *www.mmnetcenter.com* to monitor, log, and alert

Specifications

- Ports: RJ11 Jack x 1, Data x 1
- Dimension: 8.5 x 6 x 2.5 cm
